CPYRGHT CITIZENS' CONCERN

The articles by Guy Richards on the security risks have made a great impression on your readers. I hope Mr. Richards will pursue his expose until everything is in order.

B. LIPSKIER

Brooklyn

CPYRGHT

The Journal-American is to be commended for its reporting of the transfer of the State Department's six-man team of anti-Communists from work in the personnel security field. This development is shocking, and points up even more the need for an investigation of our State Department.

SHEILAH A. McMAHON

Shirley, N.Y.

CPYRGHT

You are performing a highly commendable public service in publishing the articles concerning Red spies and security risks in the government. Since the great bulk of public opinion is seldom heard, it is comforting to know your newspaper is reflecting their desires and opinions. Continue this great work.
